# Achieving Scale

- Highly skilled trade base
- Upskilling and retraining
- Demographic challenges

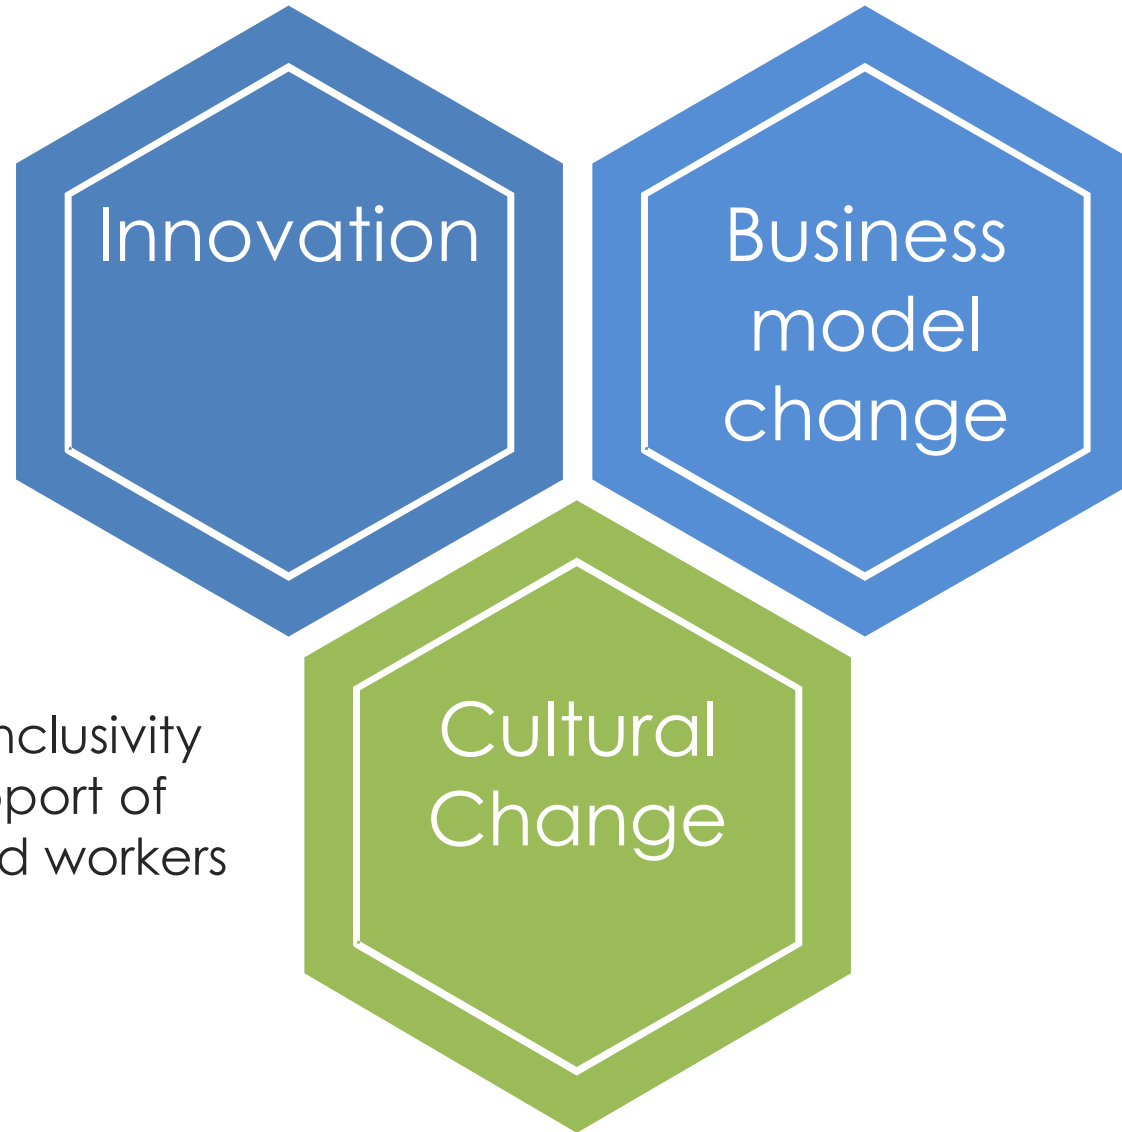

- Attracting young people
- Casting a wide net

- Supporting lateral expansion
- Working with sectors facing decline
- Creative routes to entry

# Driving Change

- Improving compatibility
- Minimising disruption
- Reducing costs

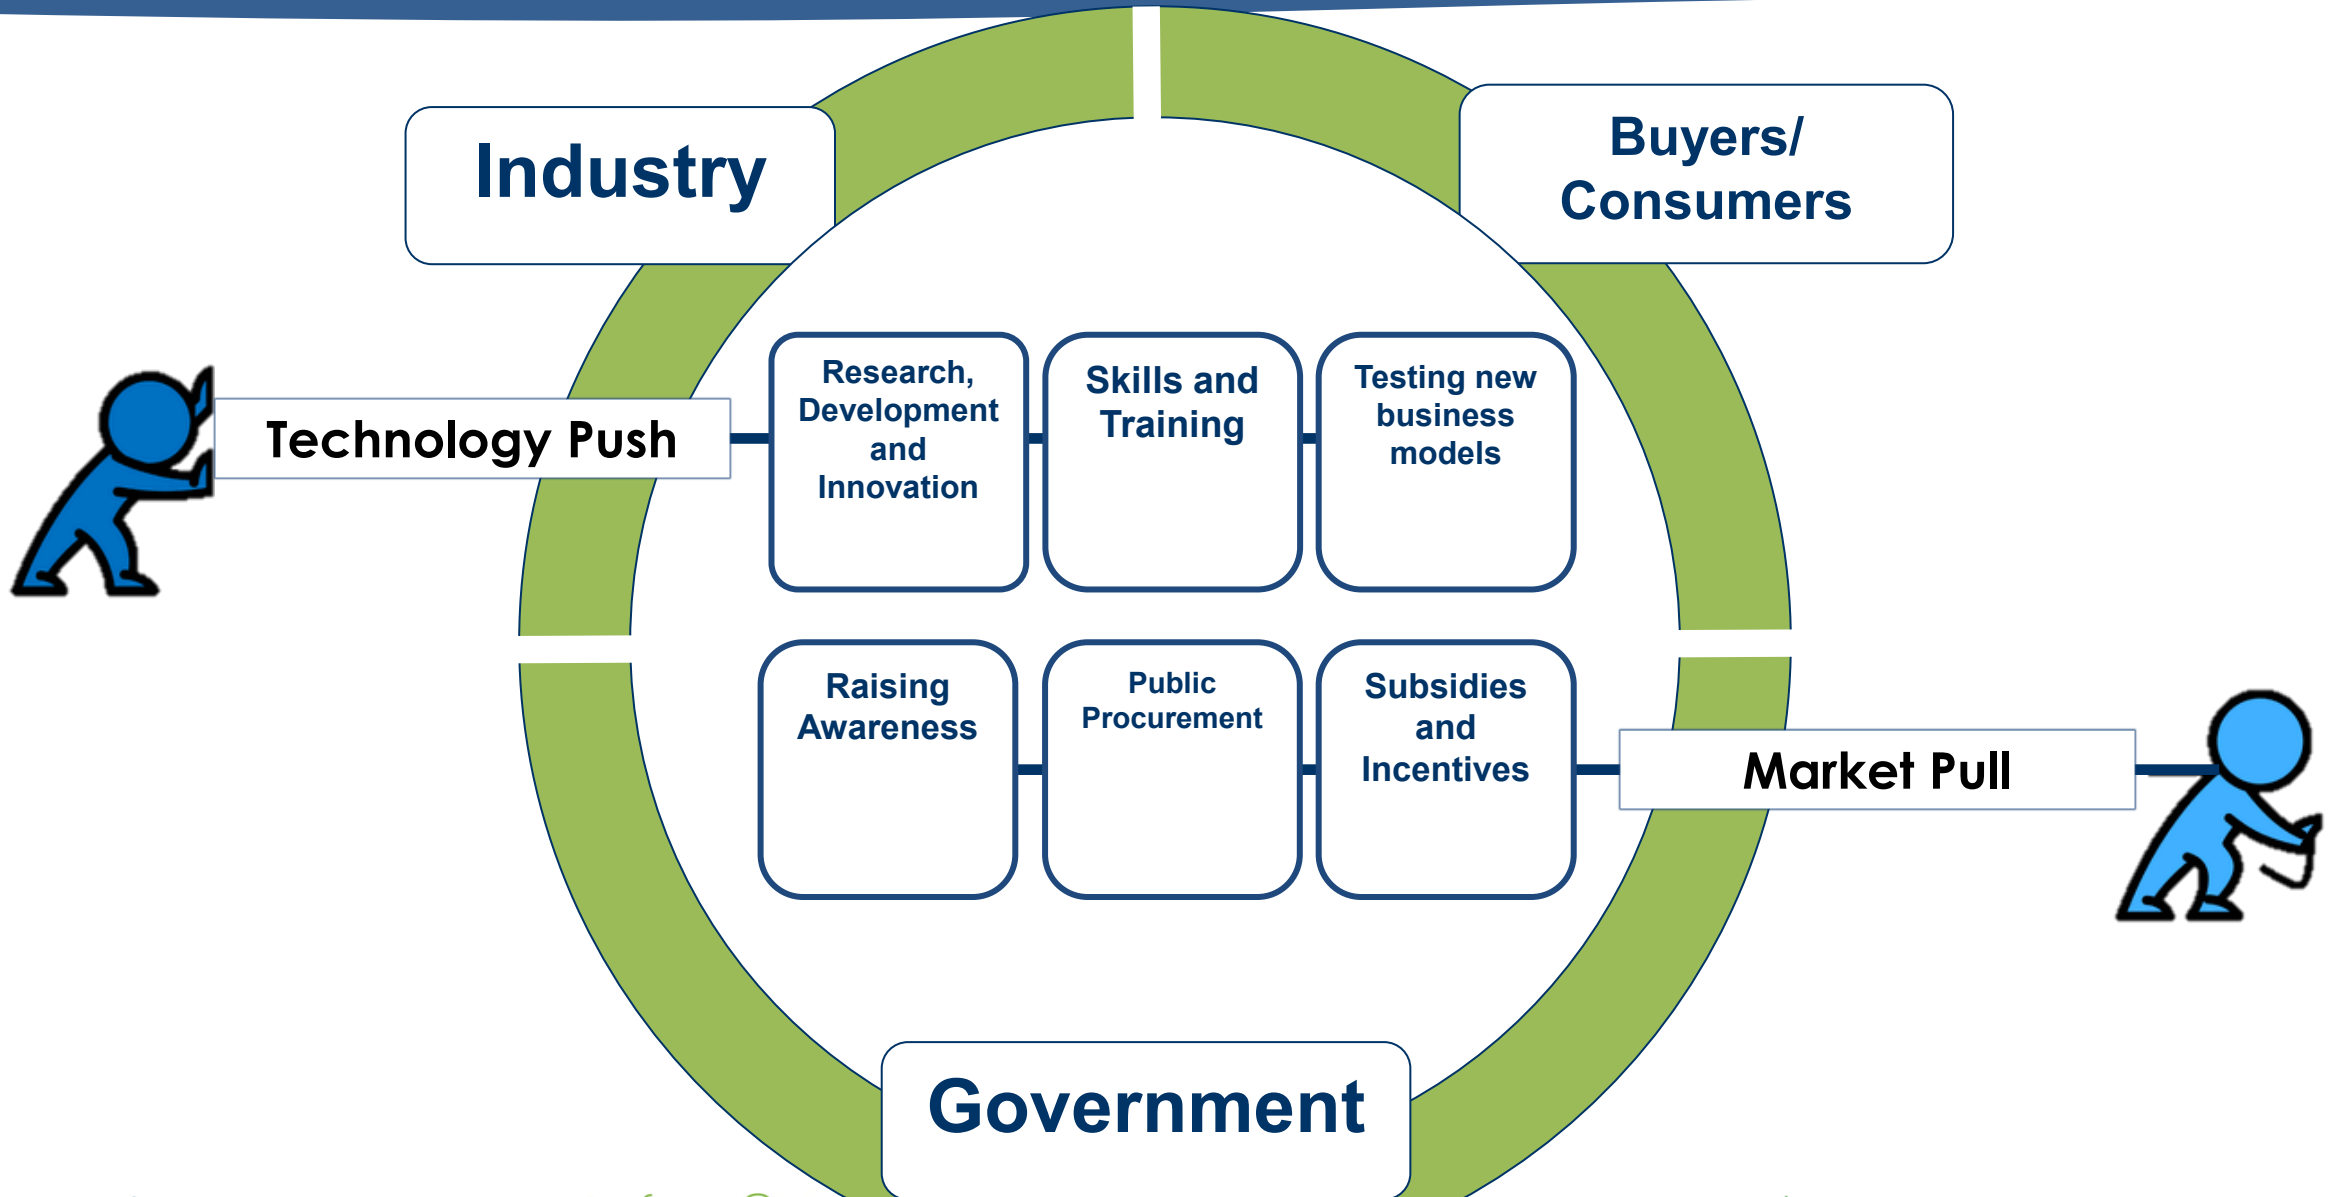

- Delivering at pace and scale
- Increased cooperation between trades
- Developing attractive propositions

- Improving inclusivity
- Building support of experienced workers

# Taking Action

# Next Steps

- Shortly:

- Publication of Heat in Buildings Workforce Assessment Project
- Publication of Heat in Buildings Quality Assurance Policy Statement
- Interim outputs from Heat Decarbonisation CESAP Subgroup

- Later this year:

- Publication of Heat in Buildings Supply Chains Delivery Plan
- Formal Response to Heat Pump Sector Deal Expert Advisory Group
